

Design a Penguin Nest Box

Your design must meet the following criteria:

- Be attractive to a penguin (they like man-made structures)
- Able to be opened by scientists to reach the penguins
- Keep larger predators like cats out
- Prevent penguins from burrowing out the bottom

Size – Length x width, must be big enough for 4 penguins	
Materials – What will you make it out of? non toxic materials?	
Construction – How will it be put together - must be simple!
