

Birds of Taiaroa Head 3-D Montage

To learn more about the bird nesting and visiting Taiaroa Head / Pukekura you can make a 3-D montage for your wall. This activity could also be modified to represent the birds of the coastal area where you live.

1. Print the Birds of Taiaroa Head ID sheet on to A4 paper or use the ID sheet to help you draw your own.
2. Find a chart (or map) of Taiaroa Head and the Otago Peninsula. Print it out or A4 paper – or use it as reference to or draw your own. You may want to add some colour or shading on the chart.
3. Glue the ID sheet onto slightly heavier paper (or a second sheet of A4 paper) for stiffness. Cut out the birds.
4. Mount your birds on the chart using blue tack or a small square of corrugated cardboard to lift the illustrations off the chart, giving the 3-D appearance.
5. Create a frame using a different coloured background.
